

Baseline measurement. What do I have?									
Capital	Human			Economic			Natural		
Impact	Social	Psychology	Intellectual	Produced	Financial	Raw materials	Biosphere	Environment	Phyiscially
Micro									
Meso									
Macro									

Frameworks and tools that use multi-capital:

- Effectuation
- Multicapital Scorecard
- R3-0.org
- SIS toolkit

Guided questions

Capital Group	Capital	Impact level	Question
Human	Social	Micro	How many people can I ask for help without problems?
			Which social networks (digital or otherwise) can I use?
			Do I have a close family and / or circle of friends?
			Am I socially active myself?
		Meso	Do I like to contact people?
			Is my direct network properly connected to external networks?
			How well is my work environment connected to other companies?
			Do other people or organizations appeal to my immediate environment?
		Macro	Are there any conflicts with other companies or organizations about developed activities?
			Is there a socially stable structure in the region or country?
			Is there a big difference between low and high incomes?
			Are there a lot of social tension?
	Psychological	Micro	Is there some form of citizen participation in the political system?
			Do I feel good with what I am doing now?
			Do I like to do what I do now?
			Do I enjoy going to work?
		Meso	How strongly do fears weigh in the performance of my work?
			Am I a trigger or an ambassador for what I do?
			Is there a positive atmosphere in my immediate (work) environment?
			Is there bullying in the immediate vicinity?
		Macro	Are people afraid to speak their mind?
			Are the people in my environment positive and involved?
			Is there an atmosphere of trust in the public authorities?
			Can and dare people stand up for their opinion?
	Intellectual	Micro	Are there mental health facilities?
			Which skills do I master and to what extent?
			What am I trained in?
			Which hobbies provide additional knowledge?
		Meso	Do I enjoy studying?
			Am I curious by nature?
			Do I inform myself spontaneously through all kinds of media?
			Do I like to do research?
		Macro	Do I know people who would like to share their knowledge and who I can question?
			Can I use patents or knowledge from my immediate environment?
			Do I have direct access to information in my environment?
			Is there a knowledge infrastructure available in the country or environment that I can rely on?
Economic	Produced	Micro	Is there a high level of education in the region?
			How good is the education system?
			What is the level of the research?
		Meso	Have I already made certain things that I can use?
			Have I been given any materials or products that I can use?
			Can I look for previously produced items that can help me further?
			Are there people in my network who would like to share or borrow materials or products?
		Macro	Does the company or organization I work in have a usable produced stock of interesting materials?
			Is there a rich arsenal of semi-finished or finished products in the region?
			Is the supply chain well organized in the region?
			Is there good general infrastructure in the country or region?
	Financial	Micro	Do I have any financial capital that I can use?
			Do I have a financial buffer?
		Meso	Are there people in my circle of knowledge who can borrow or donate financial capital?
			Does my immediate environment have the necessary available financial capital?
		Macro	Is the country or region's financial situation in order?
			Is there a healthy financial sector?
	Raw materials	Micro	Do I own valuable land?
			Are there any raw materials that can serve as raw materials in my possession?

			Do I have sources that can be accessed?
		Meso	Does my network have land or resources?
		Macro	Are there sufficient raw materials relevant for my activities in the country or region?
			Are there still enough raw materials in the world that I need anyway?
Natural	Biosphere	Micro	Can I do business in a rich natural environment?
			Is the biosphere important to my activities?
		Meso	Is there enough nature in my direct network?
			Is the environmental impact of the activities taken into account in my network?
	Environment	Macro	How much attention is paid to environmental problems in the country or region?
			Are you actively working on an environmentally positive policy?
		Micro	Is my personal environment pleasant to be in?
			Are there few disturbing elements in my personal environment (noise, light, bustle, ...)?
	Physically	Meso	Is my work environment pleasant to stay in?
			Are environmental effects in my direct network taken into account?
		Macro	To what extent is my spacious environment pleasant?
			Are environmental factors taken into account in policy terms?
		Micro	Am I physically okay?
			Am I actively working on my health?
			Do I have harmful habits for my physical health?
			Do I suffer from stress?
			Do I get enough sleep?
		Meso	Does my immediate environment provide adequate ergonomic support?
			Can I rely on emergency medical care in my area?
			Does my direct network have positive health effects?
			Do I do sports with people from my immediate environment?
		Macro	Is there a sports infrastructure in the region or country?
			Are there good medical facilities?
			Is adequate health education and information available?
			Is healthy behavior encouraged in the country or region?

Meaning of impact:

Micro	Yourself or the entity from which you do the exercise
Meso	The direct network of the entity from which you perform the exercise (stakeholders / rights holders)
Macro	The broad context on which the activity or company can have an impact.

Targets. What do I want to achieve?									
Capital	Human			Economic			Natural		
Impact	Social	Psychology	Intellectual	Produced	Financial	Raw materials	Biosphere	Environment	Physcially

To be translated into success criteria:

- KPI's:

Per capital you invest in with your project, organization or company
- Goal:

to design a new curriculum with the aim of training people who are better adapted to the network society

In words:

Human	Social	Micro	Developing a personal network is necessary for this purpose
		Meso	Growing the network of your own organization relevant to that training
		Macro	Wider public awareness of the cause among the wider community
	Psychological	Micro	Personal feeling of having accomplished something important
		Meso	Help direct stakeholders understand what entrepreneurship means for the network era
		Macro	Making people understand why we live in a complex and confused world and how to deal with it
	Intellectua	Micro	Growing knowledge around the network society and the consequences of the shift
		Meso	Provide the network with more extensive knowledge and skills to deal with the network society
		Macro	Inform the broad community about the nature of the network society
Economic	Produced	Micro	Build knowledge pools that are made available through direct contact with people
		Meso	Publish knowledge collections and make them available to a wider network
		Macro	Building public knowledge collections in co-creation with third parties
	Financial	Micro/Meso	Break even with investments made
		Macro	Find better economic balances based on network economic models that increase the sustainability and resilience of the community and ultimately also lead to higher financial results
	Biosphere/Env	Meso	Ensure the application of network economic principles, so that the local network pays more attention to the local biotope and the local environment
		Macro	Through the dissemination and application of network economics ensure a more balanced biological ecosystem and a more pleasant environment

Investments.									
What do I need to achieve my goals?									
Capital Impact	Human			Economic			Natural
